WHEREAS, on June 14, 2017, WMA’s Executive Director, Mr. Roger Merritt submitted a request acknowledging that WMA was unable to accurately measure waste by weight and sought approval to temporarily collect the previously approved tipping fees using volume to waste conversion factors (as provided by the U.S. Environmental Protection Agency) for the period from July 1, 2017 to December 31, 2017, until WMA’s infrastructure is in place to assess the fees via weight; and

WHEREAS, on June 27, 2017, after review and deliberation, the Commission voted to approve WMA’s request to bill under the proposed methodology of volume to waste, for the islands of St. Thomas and St. John for the period stated above, and that the previously approved methodology be implemented on the island of St. Croix for a period not to exceed six (6) months (*Order No. 62/2017*); and
